Come for the "core"
and get plenty more!

Enriched learning

Summer school math...

for grades 3-8

ALEKS Math Online

an individualized
math enrichment
program

ALEKS is a specialized online math tutorial program that:

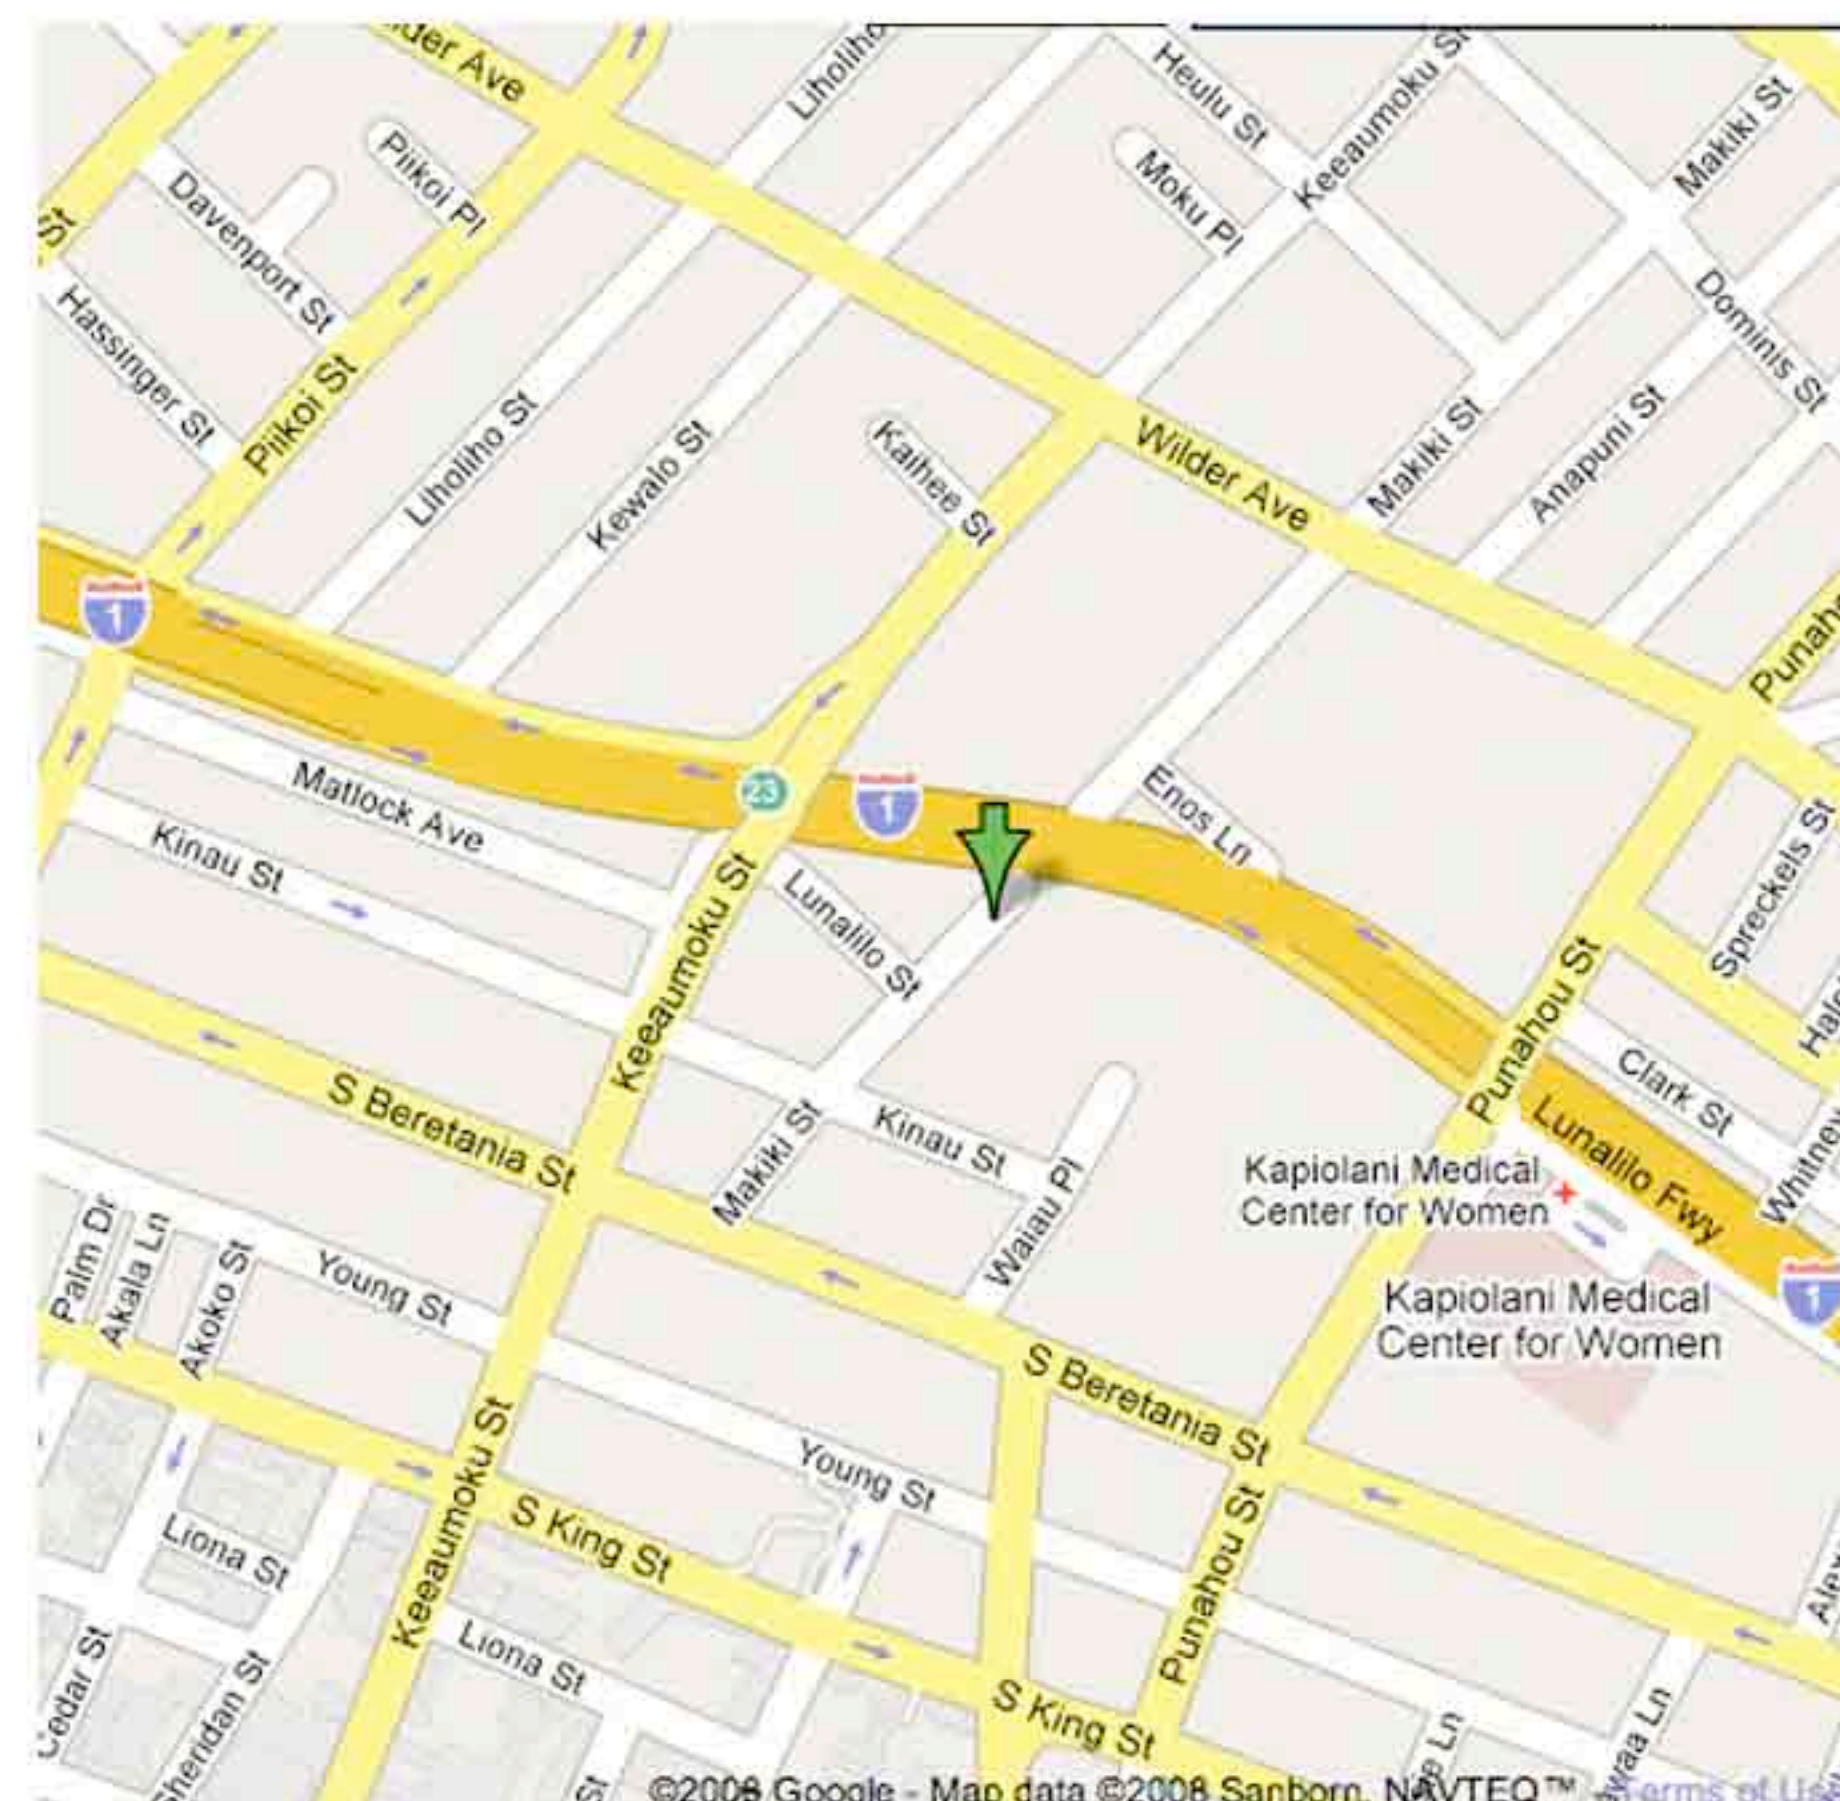

- Assesses students' current knowledge
- Gives online tutorials & practice in areas of readiness
- Does continuous assessments and periodic reports
- Can be used at home (and may be upgraded for a year's license so student can use it to enhance or enrich school math at his/her own pace.)

Now with Quicktables, it drills students on basic math facts for mastery!
